

REMARKS

The above amendments to the claims have been made to remove the multiple dependencies and otherwise place the claims in better form for initial examination and no substantive change in the scope thereof is intended. Additionally, the appended substitute specification merely editorially revised the specification to improve the readability thereof and to add headings and otherwise more closely conform it with U.S. practice. No new matter has been added as can be seen by the Examiner by reference to the appended mark-up copy thereof.

Respectfully submitted,
